LEGAL NOTICE

First Citizens Group

On Monday, September 26, 2022, the Board of First Citizens Group Financial Holdings Limited agreed to discontinue its loan application process with the Inter-American Development Bank Group's Private Sector Arm – IDB Invest for senior unsecured financing of up to US$175 million. This decision was made noting:

1. A rising interest rate environment in the United States of America and other global financial markets; and
2. First Citizens has sufficient USD liquidity to fund its initiatives within the short to medium term.

First Citizens remains committed to the development of a comprehensive sustainable finance strategy to fund its Environmental, Social and Governance goals and this process will continue.
